4-in-1

Summer Camp

BC Education Center brings you our Summer Camp. This is a great opportunity for children entering preschool through 8th grade to stay sharp, learn and have fun during summer time. Our program integrates **MATH**, **ENGLISH**, **COMPUTER SKILLS**, and **OUTDOOR ACTIVITIES**. We give students a chance to learn and have fun at the same time. Students cooperate and learn collectively during our group activities which include math exercises, math word problems, test preparation (ITBS, WASL), logic exercises, reading comprehension, grammar, vocabulary, creative writing, reading, computer applications, computer graphics, computer games, web page design and much more. Students practice the lessons on their own with the supervision of our helpful instructors. Children never had so much *fun* before!

We provide all the materials and other accessories so that our students enjoy themselves as they learn new materials.
